Summit Opening and Welcome

Andrew Bledsoe

Eric Friedlander

Andrew Bledsoe, State HIT Coordinator/Deputy Executive Director, Office of Health Data and Analytics welcomes attendees to the first ever, 2020 Joint Virtual eHealth Summit with our partners at the Kentucky REC.

Join CHFS Cabinet Secretary Eric Friedlander as he reviews the unprecedented challenges that have affected Kentuckians this past year and the strong initiatives enacted by the Cabinet for Health and Family Services to address them.
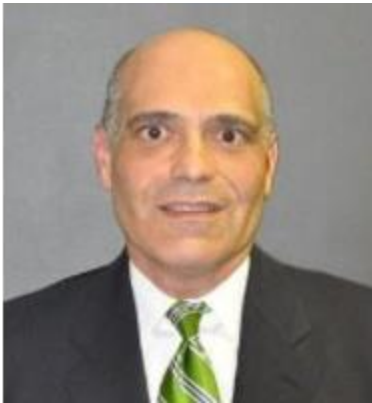

Behind the Scenes of COVID-19

Steven Stack, MD

Maik Schutze

Steven Stack, MD, MBA, Commissioner, Department for Public Health, Commonwealth of KY has served as the eyes, ears and voice behind Kentucky's response to the Coronavirus Pandemic. Learn how KY's crisis management strategies evolved from March as the virus was identified to present day with systems firmly in place.

[HealthCare C-Suite Panel on COVID-19 (part 2)](#)

Robert Putt

Brett Oliver, MD

Gary Ozanich, PhD

Judith Ann Theriot, MD

Brent Wright, MD

Unique times call for unique responses. Visit with Dr. Brett Oliver, CMIO of Baptist Health; Dr. Judy Theriot, Medical Director, KY Department for Medicaid Services; Dr. Gary Ozanich, PhD, Director, Health Informatics, Northern KY University and Dr. R. Brent Wright, MD, MMM, Associate Dean for Rural Health Innovation, Professor, Vice-Chair for Rural Health, Department of Family & Geriatric Medicine, Louisville School of Medicine as they share their perspective on the impact that COVID-19 has had and continues to have on their respective healthcare organizations; the KY Medicaid Population and the Nation. Moderated by Office of Health Data and Analytics Executive Director Robert Putt, this session will prove to be both insightful and ground-breaking as panelists review lessons learned, hard-earned successes, and the future outlook of the post-pandemic landscape.

[KHIE Solutions](#)

Andrew Bledsoe

Kiran Maringanti, PhD

Edward Louden, III

An HIE's role is to connect disparate EHR systems to facilitate quick and easy access to health information designed to improve both individual and population health in a safe and equitable manner. Andrew Bledsoe, State HIT Coordinator and Deputy Executive Director of the Office of Health Data and Analytics along with Kiran Maringanti, Deloitte Consulting will lend a historical perspective on the advent of the KHIE Services and its monumental growth to present day. Also, learn more about how KHIE services can help your organization meet national objectives as well as KHIE's response to addressing Social Determinants of Health with Ed Louden, III, Program Coordinator.

Public Health Reporting: Vaccines, Electronic Laboratory & Case Reporting

Andrew Bledsoe

Kayla Rose, PMP

David Bensema, MD, MBA, FACP

Learn about the the automation process of reporting communicable diseases including COVID-19 to the Kentucky Department of Public Health, in accordance with 902 KAR 2:020. Benefits include improved timeliness of reports and reduction of manual errors. In addition, Andrew Bledsoe, State HIT Coordinator and Deputy Executive Director of the Office of Health Data and Analytics will explain the nuances involved in this process as well as automating the EPID 200 process. The session will culminate with Kayla Rose, Project Manager, KY Health Information Exchange delivering an overview on Manual Data Entry for COVID-19 Results.

Integrative Premier Services

Andrew Bledsoe

Debbie Lowery

Dr. Norman E. Stone

Important healthcare data at your fingertips inside your Electronic Health Record (EHR) Systems represents better healthcare outcome as well as a significant time savings for clinicians. By adopting the IHE Framework standards, providers can both send and query KHIE from within their EHR to quickly access patient health information from multiple healthcare sources. This connectivity allows real-time access to aggregated clinical data: KASPER Reports (if the user is credentialed) and Medicaid Claims Data.

KASPER Reports can also be accessed via the real-time clinical data in the KHIE ePartnerViewer Provider Portal. Join Andrew Bledsoe, State HIT Coordinator and Deputy Executive Director of the Office of Health Data and Analytics and Debbie Lowery, On-Boarding Project Manager, KY Health Information Exchange for a lively discussion on the benefits of incorporating KHIE data into your EHR.

## The 411 of How to Connect from COVID to Care

Andrew Bledsoe

Sabrina Lee

David Bolt

Roger Hensley

Connect with Andrew Bledsoe, State HIT Coordinator and Deputy Executive Director of the Office of Health Data and Analytics and Sabrina Lee, Project Manager as they dive into the ramifications of KHIE's Patient Alert Query Service delivering queried results for COVID-19, Neo-Natal Abstinence Syndrome and the Office for Children with Special HealthCare Needs. Also, learn how Roger Hensley, Assistant Chief Information Officer, External Development, UK HealthCare Information Technology and David Bolt, Executive Director, KY Primary Care Association have worked in tandem with KHIE to deliver important Event Notifications capabilities designed to close care gaps for their clinicians.
